

THE COLLEGE
CLASS DAY
2022

EVENT PROGRAM

| | |
|----------------------|--|
| OPENING PROCESSION | The University of Chicago Pipe Band |
| OPENING | Allen Abbott, Class of 2022 |
| STUDENT SPEAKERS | David Liang Zara Malik Allison Mattessich |
| MUSICAL PERFORMANCE | The Dirt Red Brass Band |
| ATHLETIC AWARDS | Presented by Angie Torain Director of Athletics and Recreation Introduction by Ellie Citron |
| REMARKS | John W. Boyer, AM'69, PhD'75 Dean of the College Introduction by Mary Mouton |
| QUANTRELL AWARDS | Presented by Departmental Faculty and John "Jay" Ellison, Dean of Students |
| HOWELL MURRAY AWARDS | Presented by Andrea Hodgman Interim Director, Alumni Engagement, Careers, and Travel Introduction by Amani Mryan |
| GUEST SPEAKER | Samira Ahmed, AB'93, MAT'93 Introduction by Isabel O'Malley-Krohn |
| CLOSING | Allen Abbott, Class of 2022 |
| CLOSING MUSIC | The Dirt Red Brass Band |

STUDENT SPEAKERS

DAVID LIANG

David is an international student from Hong Kong, China, majoring in Economics and Political Science. David has served on Student Government for the past four years, most recently as the Undergraduate Liaison to the UChicago Board of Trustees. He also advises College leadership as a member of the Maroon Key Society. As President of LTF Ventures, a student-run venture capital fund, David has led investments in over a dozen startups founded by UChicago students, and launched a speaker series that brought the world's top founders and investors to UChicago. David is also the founder of two think tanks that produce research on campus policy and entrepreneurship-related topics. After graduation, David will work as a management consultant at McKinsey & Company in Hong Kong.

ZARA MALIK

Zara is a Psychology major from New York City. She helped develop the Women's Leadership Program, a new initiative in the College that encourages reflection and development of self-advocacy and leadership skills. Zara has also served on the Wellness Advisory Board since her first year, where she helped launch Take 10 - a series of pop-up events that encourage students to take a break and connect with others. After graduation, Zara will be working in Chicago as a growth equity analyst.

ALLISON MATTESSICH

Allison is a Psychology and Business Economics double major from Westfield, New Jersey. Apart from walking backwards while giving tours of campus, Allison has worked as a research assistant at the Center for Decision Research, volunteered as a supporter for the mental health support text line Lean on Me, dabbled in jazz dance through Rhythmic Bodies in Motion, and written and performed in staged readings through University Theater. After graduation, Allison will be heading back to the East Coast to pursue a Master of Social Work at Columbia University, with the goal of becoming a psychotherapist.

ATHLETIC AWARDS

AMOS ALONZO STAGG MEDAL

Named after legendary football coach Amos Alonzo Stagg, and presented annually since 1947, the medal is awarded to a senior male athlete who has combined athletic performance with scholarship, ability, leadership, character, and significant contributions to team success.

NICK D'AMBROSE

Nick D'Ambrose concluded a decorated senior campaign by receiving the 2022 Stagg Medal. The award is named after legendary former football coach Amos Alonzo Stagg, and is presented annually since 1947 to the senior male athlete with the best all-around record for athletics, scholarship, and character. As a running back on the UChicago football team, D'Ambrose was an immediate contributor with 10 touchdowns in his collegiate debut in 2018. Over his four years on the roster, he helped lead the Maroons to a 21-8 overall record. D'Ambrose became the focal point of the offense in a legendary senior season in fall 2021. UChicago boasted one of the best offenses in the nation, scoring 48 points per game and averaging 518 yards per game. D'Ambrose was at the forefront – he finished second in the nation with a school-record 1,714 rushing yards, smashing the previous record that was held for 28 years. He also set new school records with 7.4 yards per carry and 20 rushing touchdowns. Those big numbers were recognized with numerous postseason accolades, as D'Ambrose was named a First Team All-American by D3football.com, the AFCA and the Associated Press. He was picked as the Midwest Conference Offensive Skill MVP as well. D'Ambrose's academic excellence was also recognized – he earned 2021 First Team Academic All-America status by the College Sports Information Directors of America (CoSIDA).

GERTRUDE DUDLEY MEDAL

The Gertrude Dudley Medal is awarded to the senior female athlete who has contributed significantly in both leadership and performance to the women's athletic program.

ISABEL MALETICH

Isabel Maletich capped one of the best athletic careers in UChicago history by receiving the 2022 Gertrude Dudley Medal. Named in honor of former Director of Physical Culture Gertrude Dudley, the Dudley Medal has been presented annually since 1977 to outstanding senior athletes for leadership and skill in women's athletics. As a member of the track & field team, Maletich stood out as one of the nation's best jumpers right from the start of her collegiate career. In her first national meet in 2019, she captured the NCAA national championship in the indoor long jump. She followed up in the 2019 outdoor season by finishing national runner-up in the long jump. Maletich was regularly the top jumper in NCAA Division III on an annual basis. She is a three-time NCAA national champion and nine-time All-American between the long jump and triple jump events. She claimed the 2021 NCAA outdoor long jump and triple jump national championships as a junior. Maletich tied the NCAA Division III all-time record in the indoor triple jump with a leap of 12.71 meters in 2022. Ten of her indoor triple jumps rank among the top 18 marks in NCAA Division III history. She has been named the national Most Outstanding Women's Field Performer in two different years, and the USTFCCA National Women's Field Athlete of the Year in 2021. Maletich owns four school records in the indoor long jump, indoor triple jump, outdoor long jump and outdoor triple jump.

LLEWELLYN JOHN AND HARRIET MANCHESTER QUANTRELL AWARDS FOR EXCELLENCE IN UNDERGRADUATE TEACHING

In 1938, an anonymous gift to the University created an endowment, the purpose of which was unique in American higher education: a monetary award to be presented annually to faculty members in recognition of their excellence in teaching undergraduate students. The donor's anonymity technically prevailed for more than a decade, but in 1952, University Trustee Ernest Quantrell added to his gift, consented to be acknowledged as the donor and named the award for his parents, Llewellyn John and Harriet Manchester Quantrell.

The Quantrell Award is believed to be the nation's oldest prize for undergraduate teaching. Based on letters of nomination from students, the award is among the most treasured by faculty. Nobel Laureate James Cronin, University Professor in Physics, said he was "bowled over to be receiving this Quantrell prize."

"I really care about teaching undergraduates—it's both a great responsibility and a great pleasure—and to have this recognition is just incredible. It's better than some of the more public awards I've gotten," he said.

In a 1952 issue of the University of Chicago Magazine, Quantrell described the motivation behind his gift. "The success of a university depends on its product, and its product consists of students trained to lead happy, proficient, useful and unselfish lives. To obtain this product, a good faculty is essential and constitutes the most important part of a university. We have had, and still have, great teachers, but we will have still greater ones."

David Kovar
Victor Lima
Julie Orlemanski
Johanna Ransmeier
David Schmitz

DAVID KOVAR

Professor

Department of Molecular Genetics and Cell Biology and the College

DAVID KOVAR is an innovative biochemist, a virtuoso cell biologist, and a passionate educator, who inspires and challenges students to tackle fundamental cell biological concepts. His course in the biological sciences on protein structure and the inner skeleton of a cell shows a sincere dedication to undergraduate teaching. He skillfully engages students by focusing on depth, by grounding lessons in experiments, and by including a much appreciated joke of the day. Students have praised him for his clarity, enthusiasm, and caring, all sentiments captured by one student comment: “Dr. Kovar is very engaging and helpful, he is energetic and clear and excited about the material.” Several students awarded him the highest possible praise, for example, “David Kovar is hands down the best instructor I have had at this institution.”

PRESENTED BY

JOCELYN MALAMY, Associate Professor, Department of Molecular Genetics and Cell Biology and the College; Master, Biological Sciences Collegiate Division

VICTOR LIMA

Senior Instructional Professor,

Kenneth C. Griffin Department of Economics and the College

VICTOR LIMA teaches many economics majors their first course, Elements of Economic Analysis I, and some majors take their last course, the Undergraduate Honors Workshop, with him. He is an inspiring teacher, helping students navigate rigorous mathematical content, deep economic questions, and the all-important mapping between them. As co-director of undergraduate studies, he has laid the foundation for, and overseen, an explosion of interest in the largest major on campus, now accounting for more than a quarter of all declared majors. His superior teaching shows students the breadth of economic sciences and the importance of analytical and empirical rigor in addressing fundamental questions in the social sciences.

PRESENTED BY

ROBERT SHIMER, Alvin H. Baum Professor, Kenneth C. Griffin Department of Economics and the College; Chair, Kenneth C. Griffin Department of Economics

JULIE ORLEMANSKI

Associate Professor,

Department of English Language and Literature and the College

JULIE ORLEMANSKI is a scholar of medieval English literature and culture fascinated with encounters between past and present and the intellectual innovations they make possible. Her research explores how the body was understood prior to modern medicine, and her courses open for student investigation the practices of medieval healing, as well as the importance of religion in medicine today. She energizes students of both medieval and contemporary literature by asking fundamental questions of literary voice and style. Her classroom vibrates with the excitement of historical strangeness, while her clarity of explication makes past worlds approachable without domesticating them. Her erudition, coupled with her passionate investment in the mentoring relationship, makes her classroom a space of vital and transformative inquiry.

PRESENTED BY

DEBORAH NELSON, Helen B. and Frank L. Sulzberger Professor, Department of English Language and Literature and the College; Chair, Department of English Language and Literature.

JOHANNA RANSMEIER

*Associate Professor,
Department of History and the College*

JOHANNA RANSMEIER is a scholar of modern Chinese history. Her courses on law and human rights in China combine a rigorous engagement with rich primary sources with an incisive pursuit of cross-cultural contextualization and understanding. In these classes, students learn not only about modern China, but also about the importance of historicizing their own cultural assumptions regarding rights, obligations, and the uses of the law. She illuminates the important principles of law and human rights with an engaged consideration of the legal process of deliberation during trials. Her lively in-class discussions invite students to connect historical debates and struggles with contemporary ones, in China and beyond, showing them, as only the best teachers of history can do, that the past is always present.

PRESENTED BY

HOWARD NUSBAUM, Stella M. Rowley Professor, Department of Psychology and the College; Master, Social Sciences Collegiate Division

DAVID SCHMITZ

*Associate Professor,
Department of Physics, Enrico Fermi Institute, and the College*

DAVID SCHMITZ has shown exceptional leadership both in his scholarly pursuits and his interactions with students. His commitment to creating an open and welcoming environment in the classroom is reflected in the enthusiastic comments of his students: “Fantastic, extremely engaging, and interesting. He gave us examples for the abstract topics and communicated his excitement for the material to us.” “A very entertaining and interesting lecturer who really values student comprehension, constantly bringing up fascinating little tidbits of information that extend the topic we are learning about to the real world.” His students are extremely grateful for his dedication to and thoughtful guidance in the Department of Physics.

PRESENTED BY

YOUNG-KEE KIM, Louis Block Distinguished Service Professor, Department of Physics, Enrico Fermi Institute, and the College; Chair, Department of Physics

SAMIRA AHMED, AB'93, MAT'93

Samira Ahmed, A.B.'93, M.A.T.'93, is the New York Times best-selling author of *Love, Hate & Other Filters*; *Internment*; *Mad, Bad & Dangerous to Know*; *Hollow Fires*; and the *Amira & Hamza* series, as well as a Ms. Marvel comic book miniseries. Her poetry, essays, and short stories have appeared in numerous publications, and she is the co-editor of the forthcoming anthology *Magic Has No Borders*.

Ahmed also has taught high school English in Chicago and New York City, worked in education nonprofits, and served on political campaigns.

Born in Bombay, India, and raised in Batavia, Illinois, Ahmed graduated from the University of Chicago in 1993 with joint degrees: a bachelor of arts in English language and literature and a master of arts in teaching.

HOWELL MURRAY ALUMNI ASSOCIATION AWARDS

Howell Murray received a PhD degree from the University of Chicago in 1914. As an undergraduate student, he was a member of numerous societies and organizations, including Owl and Serpent, Signet, Tiger's Head, Records Club and the Undergraduate Council. He was also Abbott of Blackfriars and Chairman of Wash Prom. As an alumnus of the University, Howell Murray served as Vice President of the Alumni Cabinet, and then as a Trustee from 1950 to 1958. His enormous efforts toward the revival of the Ravinia Festival were commemorated in the naming of the Murray Theater at Ravinia. After his death in 1958, a group of friends established the Howell Murray Medal to recognize and award the level of student leadership, dedication and ambition embodied in the spirit of Howell Murray.

The Howell Murray Alumni Association Award is one of the College's highest honors; this award recognizes graduating students who have made outstanding contributions to the University through co-curricular activities. The students selected as this year's Howell Murray Award winners have been recognized by their peers and others on campus for extraordinary service to the College community.

| Shannon Davis | Yara Ibrahim | Demetrius Johnson | Samantha Koretsky |
| David Liang | Bridget Patterson | Christina Pirrotta | Ro Redfern-Taube |
| Justin Smith | Klaire Steffens | Zachary Yung | Stephanie Zhang |

ALLEN ABBOTT

Allen Abbott is a 4th year BA/MA student studying Law, Letters, & Society, East Asian Languages & Civilizations, and International Relations. On campus, he has worked to increase student representation by leading a multi-year reorganization of Student Government. Currently the Undergraduate Student President, Allen previously served in USG as a College Council Representative, Historian, and Executive Vice President of Internal Affairs. Outside of USG, he was a Project Leader and Research Director for the Paul Douglas Institute. He was also a member of the University of Chicago Environmental Alliance and EUChicago. Allen also served in several professional leadership positions, including as a Research Associate at the Chicago Project on Security and Threats, the inaugural Senior Intern at BallotReady, and a lead research assistant for Professor Austin Carson. He is a member of the Maroon Key Society, was awarded a Stamps Scholarship and Boren Scholarship, and holds Global Honors. After graduation, Allen hopes to become a Foreign Service Officer at the U.S. Department of State.

TERRA BAER

Terra Baer is a fourth-year undergraduate double majoring in Environmental and Urban Studies and Law, Letters, and Society. As an environmental leader, Terra is proud to have founded the Green Fund through Campus and Student Life and currently serves as the chair of the program's Subcommittee (GFSC). This year, she is also the Vice President of Phoenix Sustainability Initiative (PSI) and a member of Undergraduate Student Government's Committee on Campus Sustainability (CCS) as well as UChicago Environmental Alliance (UCEA), which she co-founded during the spring of her first year. Administratively, Terra champions sustainability reform as a member of the 2030 Plan Campus and Community Engagement team and an advisor to UChicago ECo, where she has advocated for student involvement in environmental decision-making processes at all levels. Next year, Terra is excited to continue her work as an environmental law researcher at UChicago Law before eventually pursuing a legal education.

SHRIYA BANSAL

Shriya has engaged with her local community through compileHer for the past four years, serving as a director, events lead, and internal outreach chair for the organization and hosting events to introduce middle school girls to computer science. Her passion for building a strong community of technologists at UChicago motivated her to help start Kappa Theta Pi and serve as its Director of Professional Development, in addition to leading introductory workshops as a board member for ACM-W. Through her role as a creative director and choreographer for the South Asian Students Association and Apsara, Shriya has shared her love for Indian dance with fellow students. She is also a research assistant in the Computer Science Department and a member of the Trott Business Program.

JO EWURAMA NYAME BLANKSON

Jo has a syndrome that makes them sign up for everything. They're the Production Manager of Off-Off Campus and a member of Phoenix Survivors Alliance, UChicago United, and Life of The Mic. Early on in the pandemic, Jo and their two best friends created 'Breakout Room: An Online Comedy Show' to fundraise for various social justice efforts. Outside of comedy, Jo's obsession with consent education has led them to become a mentor in Peer Health Exchange and research assistant at the Beyond Schools Lab. They've also cherished the off-campus connections they've made at the Howard Brown Broadway Youth Center and as a medical advocate for survivors of sexual assault. They currently work as a Harper Barista, Core Tutor, and NSP tutor, where they've recently piloted an improv program for young students. Jo has been guided by the ideas of care and fun through their journey at UChicago, and is awestruck by the richness of community they've found along the way.

SHANNON DAVIS

Shannon is a 4th year Environmental Science and Human Rights & Near Eastern Languages and Civilizations (Specializing in Arabic). Throughout her four-years, Shannon has been a mentor of FLI students through Maroon Mentors, an Executive Leader of Phoenix Sustainability Initiative (PSI), and an Executive Board member of Black Professional Society (BPS). As Co-President of PSI, Shannon instituted new groups like Green Data (a project group focused on using data analytic skills to create sustainable, data-informed change), and planned and executed events for skill-building and professional exploration, such as the inaugural PSI Case Competition. Throughout Shannon's four years, she has also been dedicated to providing free assistance and consulting to local non-profits in the area, like Experimental Station. Shannon is passionate about helping others actualize their full potential and contributing to the establishment of long-standing programs and connections.

YARA IBRAHIM

As a fourth year in the College, Yara serves as Co-Chair for the Council on University Programming, for which she leads a board of students in planning and executing campus-wide events and activities. She has also been involved in the Student Alumni Committee and Senior Class Gift Committee, working to bridge the gap between students and alumni and provide opportunities for building connections. While in housing as a member of Booth House, she worked to help foster a strong community by serving as Social Chair and continues to be involved in maintaining house culture.

DEMETRIUS JOHNSON JR.

Demetrius "DJ" Johnson Jr. is a 4th-year economics major and Odyssey Scholar at the College committed to improving the experience of Black undergraduate students on campus.

On campus, he served as President of the Theta Chapter of Alpha Phi Alpha Fraternity, which he revived at the University, as well as Co-President of the Multicultural Greek Council. He is also on the varsity football team. After the social unrest that occurred in 2020, he founded the Black Letterwinning Athletes Coalition (BLAC), an organization designed to amplify and cater to the needs of Black student athletes at predominately white campuses. Several other BLAC chapters have now launched at campuses across the country. Lastly, DJ served as a mentor to FGLI and minority students through the Trott Business Program, Leaders of Color, and Moneythink. After graduation, he will be moving to NYC to work in investment banking at Morgan Stanley.

SAMANTHA KORETSKY

Samantha Koretsky is a graduating fourth year physics major at the University of Chicago. She is proud to have been an active resident in Graham House and a member of several RSOs over her four years, particularly University Ballet of Chicago, the South Side Free Music Program, Kitchen Sink, and Alpha Phi Omega. These organizations have given her spaces for fun and creativity, lessons in leadership and teamwork, and most of all, a sense of community. She is immensely grateful to the university and all the amazing people she has met in her time here. Through all the difficulties, her last four years have always been enriched by the people and organizations surrounding her.

DAVID LIANG

David is a fourth-year in the College majoring in Economics and Political Science. Since his first year, David has served in multiple capacities on the Undergraduate Student Government, including as representative of the Class of 2022, Auditing Chair of the Finance Committee, and most recently as the Undergraduate Liaison to the Board of Trustees. David also advises the College leadership as a member of the Maroon Key Society. Outside of public service, David has dedicated his time to promoting entrepreneurship on campus. As President of LTF Ventures, UChicago's student-run venture capital fund, David has lead the seed investment in more than a dozen UChicago startups and developed an all-star speaker series featuring top founders and investors of the world. Additionally, David is co-founder of two think tanks - Campus Policy Research Institute and University Business Institute - that produce research and advocate for real policy change on student-related and business-related issues, respectively.

BRIDGET PATTERSON

Bridget is a graduating senior majoring in Public Policy (specializing in Health Policy) and Psychology. At UChicago, Bridget was involved in the Council on University Programming since her first year, serving as co-Chair her senior year, was a CLI Student Staff in the Student Activities Centers, and Communications Director of UChiVotes at the IOP for her last 2 years.

CHRISTINA PIRROTTA

During her second year in the molecular engineering program, Christina joined the Amanchukwu research lab receiving funding through the Stamps Scholars program to support her research studying a new category of electrolytes for Lithium-based batteries. During her time at UChicago, one of Christina's most meaningful involvements was serving as President for the Students for Life club where she coordinated service events with local pregnancy centers, apologetics speaking events, and a conference for students to learn how to speak compassionately and candidly on the pro-life issue. Christina also loves doing social media work for UChicago Admissions, running the Catholic Center's Instagram account, planning events while on the board of Society of Women Engineers, and competing for UChicago's Women's Varsity soccer team. One of her most memorable experiences was bringing 20 students from different Christian RSOs to a leadership conference and advising the revival of the Christian Journal, Cana, on UChicago's campus.

RO REDFERN-TAUBE

Ro is a graduating Public Policy major and Health & Society minor studying environmental justice and community organizing in urban areas. As a programming intern for the Center for Identity & Inclusion, Ro has coordinated a number of events and spaces for the LGBTQ+ community at UChicago, including affinity groups, social mixers, workshops, and candlelight vigils. Ro is very involved in performing arts activities on campus, such as University Theater and Le Vorriss & Vox Circus.

JUSTIN SMITH

Justin is a graduating senior majoring in Mathematics, Economics, Statistics, and Computational & Applied Mathematics. He currently serves as the President of the Derivatives Group Quant Trading, Commodore and Captain of the Sailing Team, 2022 Class Representative, Sports Club Fund Chair, and Election & Rules Committee Chair of Undergraduate Student Government, Vice President of the Tobler Society, Treasurer of the Program for the Advancement of Refugee Rights, Treasurer of Make Chicago Smile and Treasurer of Oeconomica, and holds positions as both a research assistant at Booth and teaching assistant in the Department of Mathematics. During his time at UChicago, Justin has served as News Editor on the Maroon, volunteered as part of the Homeless Food Runs program, and organized the quantitative finance panel of the Taking the Next Step conference. He's also been an active contributor to the Math and Applied Math clubs and the Financial Markets Program.

KLAIRE STEFFENS

Klaire has held various leadership positions throughout her time at UChicago. She is a two-year captain of the Varsity Women's Basketball team, President of the Women's Athletic Association (WAA), and Co-President of the Student Athlete Advisory Committee (SAAC). In her third year she served as the Special Olympics Chair for WAA where she planned and led a record number of inclusive practices despite the virtual setting. As President for the WAA, Klaire oversees operations for the Graduate Women's Athletic Association, Special Olympic Inclusive Practices and fundraising efforts, and Student-Athlete events fostering a welcoming environment and raising awareness for Mental Health. Prior to her second year, Klaire was elected the school's first Co-President of SAAC, her main responsibility is serving as the voice for student-athletes. During her third year she lost her basketball season and was inspired to create the University's first ever Mental Health Awareness Week for all student athletes.

ZACHARY YUNG

During his time as a scholarship cadet at Air Force ROTC Detachment 195, Zachary has been a cadet trainer, flight commander, and Public Affairs Officer as well as the Cadet Wing Commander in which he spearheaded large-scale initiatives. He is the founder and first president of the UChicago Air Force ROTC RSO aimed to provide formal financial and organizational support to current and future UChicago AFROTC cadets. Zachary has been part of the Phoenix Sustainability Initiative since his third year. He currently serves as the Project Leader for Green Data, one of eight student groups within PSI aimed to equip students to tackle issues surrounding sustainability through a data-driven and impact-focused approach. He worked with the PSI Board to launch the inaugural Sustainability Case Competition in partnership with the Energy Policy Institute of the University of Chicago, which garnered unprecedented interest from the greater UChicago and Greater Chicago communities.

STEPHANIE ZHANG

Stephanie Zhang has been involved in leadership with the student groups Phoenix Farms, Camp Kesem, Midway Ventures, UChicago Blood Initiative, The Triple Helix, and TEDxUChicago. She also conducted cancer surveillance research, worked with a community organization at the intersection of health and education through UChicago Medicine's ACHIEVE program, and served as a TA in the Biological Sciences Collegiate Division and Chicago Academic Achievement Program. She has also participated in the Global Health Scholars and Scholars in Ethics and Medicine pathways.

ACKNOWLEDGEMENTS

MUSICAL PERFORMANCES BY

THE DIRT RED BRASS BAND

The Dirt Red Brass Band is a New Orleans-inspired funk band formed at the University of Chicago in 2012. Dirt Red is known (and despised by the local police) for their loud performances in Hyde Park and throughout the city.
