Extended Enrollment Status – College
No further registration required

Extended Enrollment Status Policy
The Office of the Dean of Students in the College may approve an Extended Enrollment Status for students who have no further required enrollments and are working to complete a BA thesis or complete work to resolve any outstanding incompletes. Students must make the request with their College adviser prior to the end of the first week of the quarter during which the student intends to be on Extended Enrollment Status.

Extended Enrollment Status may be held for one quarter. If a student in Extended Enrollment Status does not graduate at the end of the Extended Enrollment quarter, the student will be withdrawn from the College. When the student has completed the outstanding work and is ready to graduate, the student can apply to graduate provided they have,

1. met all of their remaining graduation requirements and have cleared all restrictions;
2. informed their College advisers; and
3. submitted a “College Degree Application Form” by the Friday of the first week of the quarter.

Health Insurance
Unless they have waived the insurance for that policy year, students in Extended Enrollment Status can remain enrolled in the University Student Health Insurance Plan (U-SHIP).

Campus Work and Activities
Students on Extended Enrollment Status are not eligible for Federal Work Study positions. Students on Extended may not begin new student-only campus jobs, internships, or other work intended only for enrolled students. You should consult with your on campus employer or supervisor to see if a change in status will impact your work eligibility. Students on Extended Enrollment Status are not eligible to hold leadership positions in campus student organizations.
