COLLEGE ADVISING

the college
THE UNIVERSITY OF CHICAGO

Dear Student,

Now that Humanities Sequence Selection has concluded, it's time to plan for meeting with your Academic Adviser! You will be required to meet with your Academic Adviser (via Zoom) before **Friday, August 12** in order to participate in the second round of Pre-Registration.

Remember, each student is assigned to an Academic Adviser, a full-time professional who helps undergraduates pursue their academic interests and guides them as they plan a program of study leading to a degree. You'll meet with your adviser once per quarter in your first year, and once during the summer as you prepare to begin your time at UChicago.

You'll see your adviser's name and email address in your my.UChicago portal now. Beginning **Tuesday, June 28**, you may schedule an appointment with your Academic Adviser on the College Scheduling site (click on "Schedule an appointment with your College Advising") to discuss your Autumn Quarter registrations. Be sure to schedule your meeting in advance of the August 12 deadline.

Prepare for this meeting, and learn more about Autumn Quarter, by visiting the New Student Advising website. There you will also find a helpful Core Worksheet for you to complete in advance of meeting with your Adviser. Bring your completed Core Worksheet with you to your advising appointment as a jumping off point for your conversation.

Upcoming Dates, Reminders, and Deadlines

- Review any webinars you may have missed, including the *Overview of the Core.* This webinar presented by Academic Advisers, provides a deep dive into the College's Core Curriculum. Available for viewing here.
- Register for and attend today's webinar, *Introduction to College Advising*. This webinar will introduce you to the College's academic advising framework.
- Meet remotely with your Academic Adviser between **June 28 - August 12**. Your adviser's name and contact information is location in the my.uchicago portal.
- Computer Science will contact students directly who expressed interest in taking the Computer Science placement exam. If you have prior experience in Computer Science and have not already completed the Computer Science department's survey, please take this short survey **immediately** to indicate your plans. Read about the new Computer Science placement exams here.
- Submit AP and IB scores to UChicago (CEEB #1832) by **July 15.**
- Complete the math and any other relevant placement tests by **July 22**.
- Between **August 15 - 19**, submit your preferences for the remainder of your Autumn Quarter course (instructions available later in the summer).

Please reach out to your adviser with any questions!

Sincerely,

Kathleen A. Forde
Director of College Academic Advising Office
Senior Associate Dean of Students
