Dear Students,

**Pre-Registration for Autumn Quarter closes TODAY at 5:00 pm CDT!**

If you haven't submitted your pre-registration course selections, please do so now.

To pre-register, navigate to [my.UChicago](https://my.uChicago.edu) and log in using your CNetID and password. Click on *First-Year Pre-Registration* to begin the process.

Students who have not met with their Academic Adviser will not have access to the Pre-Registration site. If you have not already, please schedule an appointment with your Academic Adviser to discuss your Autumn Quarter registrations.

Please reach out to your adviser with any questions!

Best Regards,

[Kathleen A. Forde]
Director of the College Academic Advising Office
Senior Associate Dean of Students
Next Steps

- **September 11 - Your schedule will be visible in the student portal**
  Remember that your schedule will not be complete until September 11, although you may begin to see courses appear/change in the portal before this date. Starting September 11, you may review your schedule by logging into my.UChicago and selecting "My Classes" for the Autumn 2023 term.

- **September 11 - Academic Advisers will have appointments available**
  If you have a pressing schedule concern, you may make an appointment through the College Scheduling site starting the week of September 11 if you need to meet with your adviser.

- **September 11 - Requests for HUMA course changes will be accepted**
  Although strongly discouraged, students who must change their Humanities course due to pressing schedule conflicts may submit their requests between September 11-13 here. Changes will be made based on availability and are not guaranteed.

- **September 26 - The "Add/Drop" period opens for incoming students**
  The add/drop period allows you to make changes to your own schedule through the my.UChicago site. This is a period during which you may add, switch, and drop courses based on space availability and make requests to join courses that require instructor consent (if you meet the pre-requisites).

Pre-Registration Resources

**Instructions On Pre-Registering**

Step-by-step instructions on navigating the Pre-Registration site can be found here.

Remember, picking and ranking your selections is NOT first-come, first-serve. As long as you make your selections by 5:00 pm on August 18, your selections will be reviewed equally. You may make adjustments and changes to your rankings anytime during the week, but please have your final rankings in place by 5:00 pm on August 18.

**Other Pre-Registration Resources**
Review frequently asked questions about pre-registration, placements, course requirements and more here. Review the New Student Advising Website to help you prepare for the pre-registration process. If you missed our Pre-Registration specific webinar, you may view it here.

**Placement Test Results**
Your results are viewable in the Student Portal (my.UChicago).

**Recording of Math Webinar for Incoming Students**
**Click Here**
This webinar held on August 14, was hosted by representatives from the Math Department, and explained all options regarding Mathematics placement and was open to ALL incoming students. The discussion included:

- All possible Math placements, including descriptions of each Calculus sequence
- Math 180s, higher-level placements & making placement changes
- The Math Advising Team and procedures to schedule a meeting
- The Higher Level Math Exam and Calculus Accreditation Exam

**Chemistry Advanced Placement Virtual Open House**
**Wednesday, August 23, 1PM CDT**
**Register Here**
For students who successfully place out of general Chemistry, the Chemistry Department will have an additional webinar to go over class options in your first year, including possible tracks using advanced placement. *Students who receive an honors Chemistry placement will automatically be enrolled in and notified about the Chemistry advanced placement exam. » Important Info for Students Taking Chemistry

**Physics Accreditation Exams**
» Important Info for Students Taking Physics
For students with interest in taking the Physics Accreditation Exam which offers credit for PHYS 121 or PHYS 141, click the link above to learn about when and how to sign up for these exams.
