Dear <<First Name>>,

Congratulations and welcome to UChicago from the Career Advancement office – we’re so excited to meet you this fall!

We’re reaching out with a special invitation. You can start your career adventure right now through the Class of 2025 Career Launcher, a series of events and resources that will help you explore your interests and jumpstart your career. Get started here!

Here’s a snapshot of just a few things to get excited about:

- **Build experience** by shadowing a UChicago alum and experiencing a "day in the life" of a job that interests you.
- **Discover your passion** by attending a virtual Industry Immersion program or completing a self-paced career exploration and signing up for a career reflection session thereafter.
- **Get career ready** by crafting your first college resume before classes have even started and receive a personalized resume review from a career adviser!
- **Meet your UChicago family** by signing up for a peer mentor panel to hear from current students about their experiences in different career paths.
- **Launch your career in STEM entrepreneurship** by applying for the Prototype for Success, a three-year selective program for students who are passionate about science, technology, and entrepreneurship. Apply here by October 11th – early applications are encouraged!

During O-Week, you’ll meet with your first-year career adviser to learn more about all the exciting career resources and opportunities at UChicago, including internships, industry experts, and more!
Welcome from Career Advancement, Class of 2025!

We look forward to working with you throughout your four years. Enjoy the rest of your summer, and see you soon!

Sincerely,
Career Advancement
