At the University of Chicago, we believe every student has the potential to be a leader, and we strive to provide students opportunities to identify and develop the necessary skills to become global leaders who will make a significant impact and transform the world.

What kind of programs will be offered during the year?

StrengthsQuest at UChicago - The StrengthsQuest program is an opportunity for you, as a member of the College, to discover your natural talents and build on them to achieve your academic, personal, and career excellence while at the University of Chicago. The StrengthsQuest Program begins with an online assessment tool provided through the Gallup Organization. This online assessment identifies your Top 5 talents and then provides examples of how you may be able to build upon those strengths and leverage them to maximize your success as a student leader.

Women’s Leadership Book Club - Join us for our quarterly Women’s Leadership Book Club! Each quarter, we read and discuss a book that addresses issues pertaining to women’s leadership. The program is open to ALL members of the UChicago community, regardless of gender identity.

Women’s Leadership Program - This is a 6-week series in which participants will learn about, reflect on and develop self-advocacy and leadership skills. During this program, participants will explore what it means to be a woman in leadership and how their unique experiences shape their leadership framework. Participants will have the opportunity to build relationships within a small cohort of women and connect with women leaders across different fields.
