Welcome New Students

GETTING STARTED CHECKLIST

1. CREATE YOUR CNET ID
   Your CNet ID is a username that you select and will use to access most online services at the University, including your campus email address. You can choose any available CNet ID, but since your CNet ID cannot ever be changed, make sure you choose something you'll want in the future.

2. SET UP TWO-FACTOR AUTHENTICATION (2FA)
   Once you have created your CNetID, you will be prompted to set up Two-Factor Authentication (2FA). We encourage you to register two devices if possible, and claim the one-time use passcodes should you lose or break one of your devices.

3. ACCESS YOUR UCHICAGO EMAIL
   Once you have created your CNet ID, access your UChicago email through Outlook within Office 365. You can also forward your UChicago email to another account, such as the Google Suite. Visit UChicago IT services’s website to learn more: https://its.uchicago.edu/students

4. UPLOAD A PHOTO SUBMISSION FOR YOUR UCID
   To upload your photo, please visit https://myphoto.uchicago.edu. Failure to upload a photo will result in delays in submitting your Housing application, which will open in May as well as delays in receiving your University ID Card and U-Pass.

5. JOIN YOUR CLASS FACEBOOK GROUP
   Connect with future classmates by joining your UChicago Class of Facebook group. Search UChicago Class of 2025 to join.

CONGRATULATIONS AND WELCOME

Beginning in May, College communications will be sent to your UChicago email address. All communications will be available at http://orientation.uchicago.edu. Until then, we hope you enjoy the next few months before you begin your journey at The University of Chicago.
