HOW WILL YOU LEAD?

At the University of Chicago, we believe every student has the potential to be a leader, and we strive to provide students opportunities to identify and develop the necessary skills to become global leaders who will make a significant impact and transform the world.

1. STRENGTHSQUEST AT UCHICAGO

The StrengthsQuest program is an opportunity for you, as a member of the College, to discover your natural talents and build on them to achieve your academic, personal, and career excellence. The StrengthsQuest Program begins with an online assessment tool provided through the Gallup Organization. The online assessment identifies your Top 5 talents and then provides examples of how you may be able to build upon those strengths and leverage them to maximize your success as a student leader.

2. WOMEN'S LEADERSHIP BOOK CLUB

This series of discussions is open to all students, inclusive of all gender identities. Each quarter, we read a book that explores the unique challenges and opportunities for women in leadership.

3. STUDENT LEADERSHIP INSTITUTE

SLI is a leadership development program open to any student enrolled in the College. The biweekly leadership workshops series is offered during the Winter and Spring quarters. SLI offers students an opportunity to practice leadership skills in areas that will contribute to the success of their personal, academic, and professional goals.

4. WOMEN'S LEADERSHIP PROGRAM

The Women's Leadership Program is a 6-week series in which participants will learn about, reflect on, and develop self-advocacy and leadership skills. During this program, participants will explore what it means to be a woman in leadership and how their unique experiences shape their leadership framework. Participants will have the opportunity to build relationships within a small cohort of women and connect with women leaders across different fields.
