Applied for funding? **Home Dept** Y N **TAPS** Y N **GGI** Y N

TAPS expects students to hold at least one internship with a professional arts organization whose mission or current projects complement the student's academic and/or professional interests. Rather than legislate the internship's content, we leave it to the student, the arts organization, and the DGS to settle upon its precise scope & terms. By way of example, we imagine that such an internship would encompass students attending rehearsals, e.g., for a new piece or production; undertaking dramaturgical research; and/or otherwise assisting with the conceptual or creative process. Please explain below how this internship will fulfill these expectations or why the internship requirement should be waived in your case.
